Specifications

Faster output, faster delivery

- Maximum printing speed of 9m per minute (30feet/minute)
- High-capacity 256MB RAM and HDD 160GB to support big file

High-resolution label printing

- Highly stable digital LED engine
- Resolution of 600 X 1200dpi through toner base

Prompt and convenient data processing

- Prints maximum 1.2m-long labels
- Prints labels with user-preferred colors based on the color management by RIP software
- Convenient production of variable data such as barcodes, QR codes, and serial numbers (available option)
- Sensor for black mark and printing on pre-cut label

Effective and economical printing work

- Various materials can be supported (art papers, certified PP and PET) and thickness.
- Capacity of toner cartridge: (5% coverage of A4 sized paper) K-11,000 pages / CMY -11,500 pages
- Capacity of Image Drums : 28,000 pages
- Capacity of transfer belt/fuser unit : 60,000 pages

Interface and software

- Interface : High-speed USB, TCP/IP
- OS : Windows XP, Vista, Windows 2003, 7, 8, 10
- S/W : Compose Rip S/W, Wasatch Rip S/W, Windows driver

General characteristics

- Unwinder system / Rewinder system (option)
- Maximum diameter of installed media rolls: 370mm (14.5 inches)
- Diameter of the core inside : 7.62cm (3 inches)
- Automatic or manual cutting after printing
- Operating environment : Temperature 10°~32°, Humidity 20~80%
- Power supply : 220~240VAC, 50~60Hz, 4.5A
- Power consumption : usual 600W, Maximum 1,300 W
- Weight : 95kg
- Dimension : 1180mm(L) X 480mm(W) X 600mm(H)

any-rewinder

Max roll width/weight	• 8.5 inches (215mm) / 10kg
Max roll diameter	• 11.8inches (300mm)
Rewinding speed	• Max 9m/m (same as Printing speed)
Function	• Normal rotation mode • Reverse rotation mode • Counter function
Power	• 220 V ~ 240V
Dimension	• Net size : 490(L) X 550(W) X 450(H) mm 26 kg
Reference	• It should be used with any-002 only

CONVENIENT, RELIABLE LABEL SYSTEM FOR RELIABLE PROFITABILITY

any-002

Convenient Digital Color Label Press

Make your color labels with short runs affordable, compact and fast — it's user-friendly!

any-002

Convenient Digital Color Label Press

Make your color labels with short runs affordable, compact and fast — it's user-friendly!

The Color label press any-002 can make 5,000 color labels within 2 hours

As the output is a maximum 9m per minute, it is possible to print out 5,000 labels within two hours. In addition, up to 200m can be printed out at one time and the setup for printing is unnecessary-therefore, immediate printing is possible.

No need for professional technicians

The operation of the equipment is easy and simple. Therefore, no professional technicians are necessary for printing, which reduces labor costs. With a one-day education, anyone can easily become a label printing specialist.

Label printing, handily done in an office

any-002 does not require a large space. It can be installed in small spaces such as offices and can print out labels immediately whenever necessary.

Any label can be printed out at any time in a preferred quantity.

Upon the order of customers, continuous labels or pre-cut labels can be printed out immediately in required quantities. This minimizes unnecessary inventory costs and facilitates customer satisfaction through fast lead time.

Easy operation in handling label media

The automatic media guiding and media feeding system enables the customer to easily operate the printer regardless of the kind of label media.

Various materials can be supported

Labels are printed on various paper types such as art papers, certified PET and PP. Therefore, paper materials suited to customer needs can be used.

Work that was impossible with analogue equipment is now possible with anytron software.

any-002 uses its own software, and thereby conveniently and speedily processes the tasks that were impossible with analogue equipment.
The unique information that is entered into labels, such as QR codes, barcodes, and numbering, can be printed out immediately.

It provides a variety of printing functions.

It supports the black mark sensor and gap sensor in printing with an accurate position. Also, back-sided printing is available by sensing the black mark on the opposite side of the label.

Bigger roll media support

The maximum roll diameter of the unwinder is 370mm.
It enables label printing up to 500m without media change.

Minimization of waste paper

In analog label printing, there is a large problem with wasting label stock. any-002 can save label media by automatic cutting before the end of the printing. (The average waste paper is less than 10cm using Anycomm software).

Low-risk investment, but high productivity

any-002 can get a better return on investment compared to other digital label machines. Therefore, the customers are relieved of the burden of investment costs.

High-quality labels can be produced at reasonable consumable costs

Using high-capacity toners and drums, high-resolution labels can be produced at reasonable prices. The printed labels maintain their quality for a long time as they have superior waterproofing and are less susceptible to the impact of external environments.

It ensures 0.2mm straightness
The robust web station makes thin, flexible label media advance straightly and in perfect alignment.

Automatic cutter and media feeding system
Media cutting and feeding automatically begin after label printing.

Gap and front / black mark sensor
It can support pre-cut label and backside printing.

Color laser print engine with LED technology
The product is fitted with the latest laser engine that enables the printing of color labels.

Counter system
The black mark sensor exactly senses the black mark on each label.

Unwinding system
(Max. roll diameter 370mm)
It supports a high-capacity media and can print up to 500M.

Rewinding system (Max. roll diameter : 300mm)
Printed labels are easily rewound in an automatic mode. The media guide can support various media widths.

Counter LCD
You can easily check.

Operation button
1. Rewinder ON / OFF mode
2. Normal / Reverse rotation mode
